

We love to look at the picture as the seasons change; we like to see the leaves changing and the snow. It's a great way to get kids into the science room. They love to come in and check out the weather. It's increased our independence and helps us connect with our community partners.

Sheryl McCarthy, Science
& Math Teacher at the Good
Shepherd Montessori School

PAIR WITH AN ON-SITE WEATHER STATION

Pair your HD weather camera with a professional-grade weather station and view everything in real-time together from your online weather center.

HIGH-DEFINITION IMAGES FROM YOUR LOCATION

Monitor critical assets while enhancing your visibility of the community and infrastructure no matter the weather.

OVERVIEW

Share breathtaking images and watch weather conditions develop at your location with an HD weather camera that includes:

- ▶ Excellent Picture Quality
- ▶ True Day/Night function
- ▶ Low Noise Images
- ▶ High Frame Rates
- ▶ Weatherproof Housing

BENEFITS

Monitor locations and critical infrastructure as weather conditions change with crisp 1280 x 1024 pixel resolution

Keep an eye on your location's weather both day and night with automated optimization based on light levels

Become a weather hub and connect with your community like never before

Share HD views of your bird's eye view with key stakeholders like employees or local news stations

IDEAL FOR

- ▶ Schools & Universities
- ▶ Parks & Playgrounds
- ▶ Stadiums & Fields
- ▶ Transportation Departments
- ▶ Emergency Management

Show Your HD Camera View
On Your Online Weather Center

ASK ABOUT THE HD DISPLAY

Bring the images indoors
along with the latest weather
conditions, 3 types of
forecasts, radar, and local
weather alerts all in one place.

AUTOMATICALLY GET THE BEST IMAGES

The weather is always changing, but you can keep track with Sony SNC-VB600 surveillance camera. Our field technicians are experts at installing this high quality piece of equipment so that it delivers crisp, stable images from your location back to you and beyond. Easily integrate images from this advanced weather camera on your website, online weather center, or HD display so stakeholders know what's going on at your location.
